

Health Care - Social Issues Interdisciplinary Program

Courses, Requirements, and 2017-2018 Schedule

Health Care – Social Issues is an interdisciplinary program designed to enhance students’ competence in analyzing the complex social and ethical implications of health care controversies, policies, and distribution. By taking courses in this minor, students gain an understanding of how the economy, culture, technology, sociology, and psychology affect modern health care. The program enriches students’ understanding of health care’s social dimensions, preparing them for further education in any of health care’s many subfields.

MINOR REQUIREMENTS

Up to two upper-division courses may overlap with courses taken for major or other minor.

The minor consists of seven courses, of which at least five must be upper-division.

No more than two courses (eight units) may be taken with a pass/no pass grade.

To ensure an interdisciplinary learning experience, no more than three courses (twelve units) may be taken from an individual academic department.

Up to two four-unit academic internships (max 8 units) can be used in lieu of upper-division

REQUIRED COURSES

SOCI 40 Sociology of Health Care Issues
PHIL 163 Biomedical Ethics

One of the following Urban Studies & Planning courses:*

USP 143 The U.S. Health Care System
